

COURSES

COMPUTER TECH INTEGRATION

CTI-110 Web, Programming, and Database Foundation Lec 2 Lab 2 Clinic 0 Credit 3

This course covers the introduction of the tools and resources available to students in programming, mark-up language and services on the Internet. Topics include standard mark-up language Internet services, creating web pages, using search engines, file transfer programs; and database design and creation with DBMS products. Upon completion students should be able to demonstrate knowledge of programming tools, deploy a web-site with mark-up tools, and create a simple database table.

Co-Requisites: None

Pre-Requisites: None

CTI-120 Network and Security Foundation Lec 2 Lab 2 Clinic 0 Credit 3

This course introduces students to the Network concepts, including networking terminology and protocols, local and wide area networks, and network standards. Emphasis is placed on securing information systems and the various implementation policies. Upon completion, students should be able to perform basic tasks related to networking mathematics, terminology, media and protocols.
