

PROGRAMS

EARLY CHILDHOOD EDUCATION

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

The Haywood Community College Early Childhood Program is accredited by the National Association for the Education of Young Children (www.naeyc.org). The NAEYC Commission on the Accreditation of Early Childhood Higher Education Programs awards accreditation to early childhood degree programs that demonstrate evidence of excellence by meeting the NAEYC Professional Preparation Standards. The NAEYC accreditation process provides a framework for self-study, external evaluation, and improvement in the quality of teacher preparation programs.

Birth-Kindergarten Licensure Transfer Track (A55220BK)

Fall Semester 1

		Lec	Lab	Clinic	Credit
ACA Option	Choose from Success and Study Still List Below	0	2	0	1
