PROGRAMS

PROFESSIONAL CRAFTS - WOOD

The Professional Crafts: Wood curriculum provides individuals with traditional values of fine craftsmanship, creative design, and an entrepreneurial spirit for a small woodworking enterprise.

The course work includes a strong emphasis on creative thinking and problem solving. Study involves a mix of theoretical and hands-on training combined with a blend of historical and modern methods of woodworking and small business management.

Upon completion of required course work, graduates may earn a degree or a diploma. They should be prepared for self- employment, for positions in the craft industry, or for continued study toward a bachelor's degree at a four-year institution.

Associate (A30360)

Fall Semester 1

		Lec	Lab	Clinic	Credit
ACA-115	Success & Study Skills	0	2	0	1
CIS-110	Introduction to Computers	2	2	0	3
